## HOW TO USE

- Please attach the comb to the trimmer.
- Adjust the blade length as per beard length you desire.
- Push the switch to “ON” to turn on the trimmer.
- Please turn off the hair trimmer after using.

**Important:** Please do not use the hair trimmer in an inverted position, this can cut the hair too deep. Trimming your hair without the comb will trim hair length to approx. 0.5 mm

## HOW TO CLEAN

- Ensure the hair trimmer is turned off and the power cord is removed.
- Please clean the beard trimmer’s surface with a wet cloth. Do not use any cleaner or chemical substance.
- Wipe the beard trimmer’s surface with dry cloth. Do not use blower or other dry heat exchange.
- The hair trimmer should not be cleaned by immersing into water.
- Remove the blade and you can wash it under running water.
- As a good practice and for longevity of your trimmer, please do regular oiling of trimmer’s motor and blade. This will always keep friction reduced between blade and increase blade and battery life.
