THE DESCRIPTION AND INTRODUCTION

Usage of the handle:

Pull out the plastic clips and then naturally bend the fingers holding the hand to lift up the machine head.

Usage of the clips:

Follow the picture, pull out the clips to open and remove the machine head

The connection method for hose:

Insert the hose connector. Turn off the into the suction mouth, and then rotate about 90° swith after using “—” for power turn on Backpack function to make it tightly locked.

Backpack function:

Take out the backpack belt and put into the slot, when use, you can carry it on your back. After using, remember to take it down and reserve for next use.

Blowing function:

Connect the hose connector with the blowing mouth and tighten, when it works, put the suction nozzle toward the object. Remember to check the hose to make sure the hose wall is clean.

Tube assembly storage function:

Put the tube assembly here for next use.

Hanging wire function:

After using, hang the wire here for storage and fix the power cord to the left slot to ensure that the power cord is clean.

INSTRUCTION AFTER USE

1. Turn off the switch "o" for turn off "-" for turn on.

2. Pull out the plug and put the wire in order.

3. Take off the hose and floor brush, clean the rest dust.

6. Take off the filter, wash and dry it for next use.

5. Clean the tank and dry with a soft cloth.

4. Take off the head as the picture.

PROTECTIVE DEVICE

Special instruction of the protective device

- When tank is full of water, the device will raise up, suction power will stop and abnormal noise indicate that the motor is running at a high speed. If this happened, you should cut off the power, and pour away the water. Return on the power, it will begin to work normally again.
- When vacuum cleaner overturn or shaking, the device works, you should cut off the power and make it upright, then turn on the machine again.
- When tank is full of water, the device will raise up, suction power will cut off, please stop the working immediately.

CLEANING & MAINTENANCE

Before cleaning , please turn off the power and pull off the plug.

Methods of cleaning:

- Use brush to clean the dust on the filter
- Use tap or shower wash the filter from inside to outside for better clean.
- Put the filter in a well-ventilated place to air-dry it.
- Store it properly for your next use.

Note: After your washing

- Be sure of intensive drying (To avoid bad smell or block)
- Do not use air blower or another kind of hot-blast air drying it (To avoid causing failures due to out of shape).
- Do not use detergent/bleach/thinner/alcohol etc (to avoid causing cracks and fading color).

ATTENTION TO AVOID FIRE

- Do not move it when the clips unlocked. (To avoid damages when you moving it).
- Use wire and plug in a correct way. Please pull out the plug when you not use it. (To avoid the bad insulation causing electric shock/the leakage of electricity or fires).

Avoid incorrect operation

- Do not put metal into the connector of this machine (To avoid electric shock).
- Do not pull the plug by the wire.
- Do not pull or move the machine by pulling the hose.
- Please use the handle to move or pull it (To avoid damages cause by falling) .

OPERATION REQUIREMENTS

- Please not collect the following things in case caused breakdown or bad smell:

Dehumidizer.

Massive of powder(construction waste/powder of fire extinguisher).

Pet excreta etc.

Glass/tins/needles/toothpicks.

Something easy to block the Hose (ropes/stockings).

- Please use the hose carefully (to avoid it damaged).
- To avoid the motor overheating Please not use it continually more than half an hour, otherwise this may reduce its working life time.

When the tank is full of dust.

When the suction mouth is blocked.

When the hose, tube, nozzle is blocked.

- Please not use the hose or the tube to collect dust directly to avoid wear.
- Please use the floor brush or crevice nozzle etc.
- Please not block the air-outlet (To avoid out of shape caused by overheating)
- Please do not continually use it, when the suction mouth is blocked.
- Please check whether the cloth or HEPA filter was installed before using (To avoid the waste go into the motor directly, caused the burning).

TROUBLESHOOTING
