ABOUT THE PRODUCT:

The Lifelong Immersion water heater has an excellent anti-corrosive coating. It is quick, durable, and is well protected inside the water, while ensuring that the water gets heated quickly.

OPERATING INSTRUCTIONS:

1.The heater is provided with a 3-core cable and a plug top. It is recommended that the unit should be used with a suitable and a good quality 3-pin socket with proper earthing. It is mandatory to use the unit with proper earthing.

2.The unit should be immersed in a vessel in such a way the level of the water is in between the "Maximum" & "Minimum" marks indicated on the unit. Care should also be taken to ensure that the plastic body is not immersed in water.

3.The heater should be connected to the mains only after it is dipped in water.

4.The Immersion heater is meant for heating water only and should not be used in any other liquids (oil, milk).

DOS AND DON'TS:

1. The unit should NOT be hanged on the wall of the plastic bucket.

2.The current supply should be turned OFF and the plug removed from the socket before the heater is removed from the water.

3. For personal safety and to avoid damage to the unit, the heater should be removed from water only a minute or two after switching OFF the current and plug is removed from the socket.

4. Do not bring the Immersion Heater in contact with any combustible material immediately after it is withdrawn from water.

5. The heater should be immersed up to at least the Minimum marking to avoid a fuse due to dry heating.
