Dear Customer,

Congratulations on your Lifelong Purchase. Our name stands for high-quality and thoroughly tested products. This Lifelong Voltage Stabilizer is a great time saver and a helpful gadget.

This unit has been produced under stringent quality norms coupled with good manufacturing practice, which will ensure years of uninterrupted service of optimise the performance of the unit.

INSTRUCTIONS

1. Connect your equipment to the Lifelong Voltage Stabilizer and connect the stabilizer to the mains. Please ensure that the earthing is properly done and there are no loose connections. Always use a power plug and socket with ground terminal.
2. This Stabilizer can withstand upto 320V AC input. Please ensure excess voltage beyond this limit is not fed since it can cause serious damage to the stabilizer and the connected equipment.
3. This stabilizer is suitable for only 50Hz equipment.
4. Spike protection is provided in this stabilizer to safeguard the connected equipment from unprecedented voltage spikes that are typically caused by power outage, short circuit or power transition in the other large equipment connected on the same powerline.
5. This stabilizer is provided with a time delay function that may delay the output voltage supply up to 8 seconds depending on the quality of the input voltage. Time delay provided proper safety net for the connected equipment by regulating the input voltage.
6. Unplug the stabilizer from the mains during lightning since it can damage the stabilizer and the connected equipment.

TROUBLE SHOOTING AND PRECAUTIONS

7. Do not modify or extend the stabilizer cable. Do not place any heating equipment near the cable.

8. The stabilizer should always be kept away from water. If the stabilizer is affected with water due to rains, flood, etc, please contact Customer Care before using it again.

9. Do not touch or clean the stabilizer with wet hands. Turn off the main power and unplug the stabilizer before cleaning it.

10. Do not store/allow/use any inflammable items or gases near the stabilizer.

11. When the stabilizer is not in use for a long time, disconnect the power supply plug.

12. Do not place the stabilizer on any electrical or electronic equipment.

13. Do not cover the stabilizer with cloth or other material since it may block the air circulation.
