## About the Product:

The Vibez smartwatch comes with a display, with a dial that sports a captivating design and a responsive touch interface for effortless control. The health monitoring features in the watch help you keep a track of heart rate and are great to keep a track of your blood oxygen levels as well.

## Markings on Product:

## App Installation:

This watch is wireless transmission product, and many functions need to be connected with the supporting APP before it can be used. Only in the APP after the bracelet is connected, other functions can be used, such as time synchronisation, call reminder and information content push, weather display, remote camera, music control, etc. You can download the Dafit APP from the App store.

## Step 1- Scan the QR Code

## Step 2- Download the App

## Step 3- Allow your Bluetooth

## Step 4- Fill in your details

## Step 5- Tap on add a device

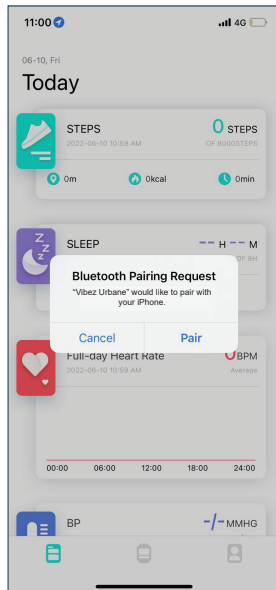

## Step 6- Select your device to pair

## Step 7- Tap on pair and then your device is connected

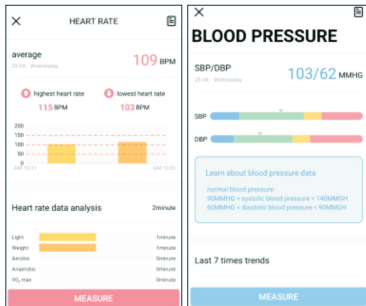

## App Operation Instructions:

1. Enter the app movement page and press your phone screen to pull down and refresh the bracelet data.

2. Click the steps, sleep, and other blocks, and enter the analysis of the daily or recent exercise and sleep data.

3. Click the heart-rate/blood pressure blocks to enter the data of the day or recent or click the app to measure the heart rate and blood pressure. The test data will automatically be saved on the phone.

## Functions:

**Main page:** The smart watch shows you the time, Date, calories, etc.

**Sports Information:** The watch shows the most recent movement Information such as motion mode, time, heart rate, etc.

## Attention:

- Do not charge in the situation of charging stains.
- This product is an electronic monitoring product, which is not used as medical treatment.
- Do not wear this device when bathing or swimming for longer periods.
- Use the matching charging cable for charging.

## Device Operation:

### Charging Diagram:

1. Please align the magnetic charger to the contact on the back of the device for charging.
2. Plug the USB, tap into the USB adapter.

**Weather Information:** The weather information will display the current weather, air quality information, and predictions. This function only works if it's connected to the App, and the phone must open GPS positioning and allow the APP to have access to the phone's location. If you disconnect or turn off your GPS for a long time, the weather information will not be updated.

**Steps:** Record the current number of steps of the watch, calories and distance.

**Sleep:** The watch shows the recent total sleep time, as well as the quality of your sleep. More detailed information analysis and data record can be viewed in the App synchronously.

**Message Notification:** The watch can receive call notifications.

**Blood Oxygen:** Long press on the blood oxygen page can measure your blood oxygen value. This page can display the data of your previous blood oxygen tests. More detailed information can be viewed on the app synchronously.

**Heart Rate:** The length of the heart rate page on the hand ring can measure your current heart rate. This page can display the data of your previous heart rate info. More detailed information can be viewed on the app synchronously.

**Settings:** On this page, long press to select other function settings, including stopwatch/ mute/ brightness adjustment/ restore factory settings/ shutdown.

**Take photo control:** After connecting to the app, the watch can be used as the remote control of the phone camera. Open the camera on the phone, and long press the touchscreen.

**Exercise:** Long press in the exercise page, the corresponding sports mode can be selected for measurements.

**Stopwatch:** The clock can be started with a long press on the stopwatch page. Long press again to end the timing.

**Music control:** After connecting to the App, the watch can control the play/pause/play of the music player on the mobile phone.

## Dos and Don'ts:

- Please do not expose the watch to any chemicals.
- Please do not place the main unit close to strong magnetic fields or electric fields.
- Please do not put the unit in water or near elevated temperatures.
- Please do not disassemble, repair, or manufacture it by yourself.
