## App Operation Instructions:

1. Enter the app movement page and press your phone screen to pull down and refresh the bracelet data.

## Functions:

**Time:** The smart watch shows you the time, Date, calories, etc.

**Sports Information:** The watch shows the most recent movement information such as motion mode, time, heart rate, etc.

**Weather Information:** The weather Information will display the current weather, air quality Information, and predictions. This function only works if it's connected to the App, and the phone must open GPS positioning and allow the app to have access to the phone's location. If you disconnect or turn off your GPS for a long time, the weather information will not be updated.

**Steps:** Record the current steps of the watch, calories, and distance.

**Sleep:** When you fall asleep, your watch automatically determines that you're in sleep detection mode, automatically detects how long you've been asleep/light sleeping/sleeping all night, calculates the quality of your sleep, and updates your sleep data to the APP synchronously.

**Message and call Notification:** The watch can receive direct call notifications whenever you receive a phone call on your phone.

**Heart Rate:** The length of the heart rate page on the hand ring can measure your current heart rate. This page can display the data of your previous heart rate info. More detailed information can be viewed on the app synchronously.

**Settings:** On this page, long press to select other function settings, including stopwatch/ mute/ brightness adjustment/ restore factory settings/ shutdown.

**Stopwatch:** The clock can be started with a long press on the stopwatch page. Long press again to end the timing.

**Music control:** After connecting to the App, the watch can control the play/pause/play of the music player on the mobile phone.

**Flashlight:** Click to enter, the entire interface will turn white.

**Sedentary reminder:** Enable the sedentary reminds through the mobile APP. You can set the reminder period, and the watch will remind you to get up and move on time.

**Alarm reminder:** Through the APP, you can add and set the alarm time, synchronize the watch to display the alarm time, and turn the alarm on or off.

**Low Battery:** When the watch has a low battery, the watch will show a low battery reminder.

## Dos and Don'ts:

- Please do not expose the main unit to any chemicals.
- Please do not place the main unit close to strong magnetic fields or electric fields.
- Please do not put the unit in water or near elevated temperatures.
- Please do not disassemble, repair, or manufacture it by yourself.

## Know your Device:

Using in Wet Conditions:

Your device is water-resistant, which means it is rain-proof and splash-proof and can stand up to even the sweatiest workout.

Note: Do not swim with your smart watch. We also don't recommend showering with your wristband; though the water won't hurt the device, wearing it 24/7 does not give your skin a chance to breathe. Whenever you get your bracelet wet, dry it thoroughly before putting it back.

## Using Quick View:

With quick view you can check the time or the message from your phone on your smart watch without tapping. Just turn your wrist towards you and the times screen will appear for a few seconds.

## Environmental Conditions

- Operating Temperature 14F to 122F (-10°C to 50°C)
- Non-Operating Temperature -4F to 140F (-20°C to 60°C)

## Size

- Fits a wrist between 5.5 to 7.7 inches in circumference.

## Disposal and recycling

Please be aware that this is the consumer's responsibility to properly dispose of and recycle the smartwatch and the accompanying components. Do not dispose of the smartwatch with general waste. It should be disposed at your local electronics equipment collection facility.

For more information, please contact your local electronics equipment waste management authority or the retailer where you bought your smart watch.
