## About the Product:

The Vibez smartwatch comes with a display, with a dial that sports a captivating design and a responsive touch interface for effortless control. The health monitoring features in the watch help you keep a track of heart rate and are great to keep a track of your blood oxygen levels as well.

## App Installation:

This watch is wireless transmission product, and many functions need to be connected with the supporting APP before it can be used. Only in the APP after the bracelet is connected, other functions can be used, such as time synchronisation, call reminder and information content push, weather display, remote camera, music control, etc. You can download the Dafit app from the App store.

Or

Step 1- Slide down

Step 2- Click on settings tap

Step 3- Select app QR code

Step 4- Scan the QR code

Step 7- Fill your details

Step 5- Download the app

Step 6- Make sure your Bluetooth is on

Step 8- Tap on add a device

Step 9- Select Vibez Ornate and pair your device

## App Operation Instructions:

1. Enter the app movement page and press your phone screen to pull down and refresh the bracelet data.

2. Click the steps, sleep, and other blocks, and enter the analysis of the daily or recent exercise and sleep data.

3. Click the heart-rate/blood pressure blocks to enter the data of the day or recent or click the app to measure the heart rate and blood pressure. The test data will automatically be saved on the phone.

## Functions:

**Time:** The smart watch shows you the time, Date, calories, etc.

**Sports Information:** The watch shows the most recent movement information such as motion mode, time, heart rate, etc.

**Steps:** Record the current steps of the watch, calories, and distance.

**Sports and training:** Long press in the exercise page, the corresponding sports mode can be selected for measurements.

**Weather Information:** The weather Information will display the current weather, air quality Information, and predictions. This function only works if it's connected to the App, and the phone must open GPS positioning and allow the app to have access to the phone's location. If you disconnect or turn off your GPS for a long time, the weather information will not be updated.

**Message Reminder:** The device can sync incoming notification from Twitter, Facebook, Whatsapp, Instagram etc. Recently 5 messages can be stored.

**Note:** You can switch on/off the incoming notification in the APP.

**Sleep:** The watch shows the recent total sleep time, as well as the quality of your sleep. More detailed information analysis and data record can be viewed in the App synchronously.

**Heart Rate:** The length of the heart rate page on the hand ring can measure your current heart rate. This page can display the data of your previous heart rate info. More detailed information can be viewed on the app synchronously.

**Blood Oxygen:** Long press on the blood oxygen page can measure your blood oxygen value. This page can display the data of your previous blood oxygen tests. More detailed information can be viewed on the app synchronously.

**Remote Shutter:** After connecting the device, you can remote control the camera on your phone.

**Music control/Player Shutter:** After connecting to the App, the watch can control the play/pause/play of the music player on the mobile phone.

**Other Features:** On this page, long press to select other function settings, including stopwatch/ mute/ brightness adjustment/ restore factory settings/ shutdown.

**Stopwatch:** The clock can be started with a long press on the stopwatch page. Long press again to end the timing.

**Theatre Mode:** The device will turn off the vibration and turn down the brightness when the theatre mode is turned on.

**Note:** You can turn on/off the theatre mode in the control centre.

**Remind to Move:** The device will vibrate to remind you to take a stroll after each hour of sitting.

**Note:** You can switch on/off the feature in the App.

**Remind to Drink:** The smart watch will show you the notification of 'Time to Drink Some Water' at the planned drinking time..

## Dos and Don'ts:

- Please do not expose the main unit to any chemicals.
- Please do not place the main unit close to strong magnetic fields or electric fields.
- Please do not put the unit in water or near elevated temperatures.
- Please do not disassemble, repair, or manufacture it by yourself.

# Getting to Know Your Device:

## 1. Using in Wet Conditions

Your device is water-resistant, which means it is rain-proof and splash-proof and can stand through the sweatiest workouts.

NOTE: Do not swim with your Smart Bracelet. We also do not recommend showering with your smartwatch though the water won't hurt the device, wearing it 24/7 does not give your skin a chance to breathe. Whenever you get your smartwatch wet, dry it thoroughly before putting it back on.

## 2. Using Quick View

With Quick View you can check the time or the message from your phone on your Smart Bracelet without taping. Just turn your wrist towards you and the time screen will appear for a few seconds.

## 3. Environmental Conditions

Operating temperature: 14°F to 122°F (-10°C to 50°C) Non-operating temperature: -4°F to 140°F (-20°C to 60°C)

## 4. Size: Fits a wrist between 5.5 and 7.7 inches in circumference.

## 5. Disposal and Recycling

Please kindly be aware that it is the consumer's responsibility to properly dispose and recycle Smartwatch and accompanying components.

Do not dispose of Smart Bracelet with common household waste, the Smart Bracelet unit is considered electronic waste and should be disposed of at your local electronic equipment collection facility

## Terms and Conditions:

- This warranty is void if:
  - The completely filled warranty card is not presented at the time of servicing the product.
  - The product is not operated according to the instructions given under the user manual.
